# FARA and federal awards

Public baseline • 14 October 2026 • $0 external spend

# FARA and federal awards: overlap is not a disclosure violation

**No disclosure violation was established.** This $0 pilot identifies some FARA registrants and named foreign principals in federal award records. Canadian Commercial Corporation dominates the US action count. The other corroborated US keys are law/communications firms whose ordinary federal services can coexist with unrelated foreign-client engagements. Canadian funding disclosures are already present in the strongest organizational example. Grants and Canadian procurement coverage remain incomplete.

Prepared 14 October 2026. These are descriptive overlaps, not accusations. No new research was conducted for publication.

## Newsroom findings

• **CCC accounts for 2,184 of 2,310 expanded US actions (94.5%).** Its matched FY2025 net obligation changes are US$1,397,519,226.86. That is an obligation measure, not cash paid or a lobbying budget. CCC is the named principal and recipient; its separate FARA agent is not treated as the contractor.

• **The 11 other US keys are registrants, not evidence that their foreign clients received contracts.** Three have only zero-obligation matched actions; two have only deobligations. Ordinary dual engagements are a plausible explanation, not a concealed-control finding.

• **Three names match active Canadian lobbying records:** The Porter O'Brien Agency Inc., Burke Consulting LLC and Nuclear Waste Management Organization. NWMO appears in two FARA roles, giving four role/registration keys, not four organizations.

• **NWMO already discloses funding:** C$3,547,322.81 from AECL and C$1,876,192.54 from NRCan for the financial year ended 31 December 2025. These are self-reported amounts, not independently verified grant payments. A consultant's client funding is not the consultant's fee income.

• **There is no full grants result.** Three US FY2025 grant-name queries returned no rows; the grants corpus was not screened. Canadian all-federal grants and contracts files returned 403. The accessible CanadaBuys history is a bounded PSPC-managed slice; no temporal FARA overlap was corroborated in it. This is not a comprehensive Canadian negative.

## Two scopes, not two additive totals

This baseline's conservative direct exact-name, building/city and date check yields **14 address groups, 79 actions and 37 award/IDV IDs**. Carrying an address-confirmed identity only to the **same exact legal name and recipient UEI** yields **21 groups, 12 recipient/role/registration keys, 2,310 actions and 1,719 award/IDV IDs**. **The 79 actions are included in 2,310. Do not add them.** FARA supplies no UEI: the bridge is derived within the award corpus. **An address mismatch is unresolved, not a rejection.** Overseas headquarters and recipient operating offices can differ; distinct subsidiaries need their own dated identity/control checks. This baseline does not claim to exhaust all direct-principal or subsidiary ownership leads. A broader resolution review is separate from these published results.

Every US row below and in US-RESULTS.csv, compact-candidates.csv and DOSSIERS.md separates the two scopes. All monetary figures use expanded action obligations, not payments, revenue, campaign spend or award ceilings.

| US recipient | Role / FARA agent registration | Direct actions | Expanded actions | Expanded net obligations, US$ |
|---|---|---|---|---|
| ArentFox Schiff LLP | registrant / 6952 | 2 | 2 | -25,010.73 |
| Arnold & Porter Kaye Scholer LLP | registrant / 1750 | 13 | 13 | 2,980,265.00 |

| US recipient | Role / FARA agent registration | Direct actions | Expanded actions | Expanded net obligations, US$ |
|---|---|---|---|---|
| Canadian Commercial Corporation | foreign_principal / 5971 | 4 | 2184 | 1,397,519,226.86 |
| Daniel J. Edelman, Inc. | registrant / 3634 | 16 | 21 | 1,321,704.23 |
| Fleishman-Hillard, Inc. | registrant / 5801 | 7 | 7 | 0.00 |
| Hunton Andrews Kurth LLP | registrant / 7268 | 3 | 45 | -169,244.66 |
| Nelson Mullins Riley & Scarborough, LLP | registrant / 5928 | 2 | 2 | 44,250.00 |
| Rational 360, Inc. | registrant / 7369 | 1 | 1 | -26,062.62 |
| Ruder Finn, Inc. | registrant / 6840 | 8 | 8 | 0.00 |
| The Burson Group LLC | registrant / 6227 | 8 | 8 | 0.00 |
| Venable, LLP | registrant / 5931 | 4 | 8 | -85,795.00 |
| White & Case LLP | registrant / 6393 | 11 | 11 | 281,321.25 |
| **Total actions** | **12 keys** | **79** | **2,310** | **Obligation changes, not payments** |

**FARA role numbers:** a principal's registration number identifies its **agent's registration**, not a unique principal ID. CCC's 5971 identifies O'Brien Gentry & Scott's registration. A principal can have several agent relationships. Principal status does not imply foreign-government status or ownership/control. NWMO's two roles do not double its disclosed funding.

## Coverage and the missing story test

All three FARA CSVs were read: 7,090 registrants, 17,765 principal relationship rows and 154,309 catalogue rows; 15 principal rows were quarantined. Cached FARA active status is evaluated **6 October 2026**, not certified live on publication day. Every US archive CSV was read: **6,639,176 FY2025 actions**, 1 October 2024–30 September 2025, and **101,379 distinct nonblank raw recipient names**, not unique legal entities.

Canada covers all 177,371 primary registration-version rows, 218,466 funding rows and 2,083 bounded CanadaBuys history rows. Latest OCL effective/posted date: 9 October 2026. History award dates: 1 April–25 September 2026. Other Canadian ZIP members were not analyzed for ownership/activity. Original FARA PDFs were inaccessible and not read. The technical annex gives all stage denominators, methods and gaps.

For a US ownership inconsistency, obtain the actual dated offer/SAM immediate/highest-level owner representation, applicable award-year clause and a contrary sourced control fact for that same entity. FARA status alone is not that fact. Award-specific lobbying requires its own payment/activity evidence and operative clause/SF-LLL. See FAR 52.204-17, 52.203-11, 52.203-12 and DOJ's FARA FAQ.

For Canada, compare actual qualifying grant/nonrepayable-contribution receipts to the registration's completed financial year and amendments. **Procurement is excluded from lobbying government-funding disclosures**, so procurement omission is not an inconsistency: OCL registry, Lobbying Act. Consultant contract-award lobbying and in-house activity differ; a consultant's FARA engagement does not establish control of its client.

X04 needs the exact LD-1 and Exhibit A control facts. X06 needs itemized campaign financing and an exact ad/placement bridge. Federal obligations supply neither. Inaccessible representations remain untested, not absent or false. No candidate passes a source-backed violation gate.

## Read and reproduce

Public PDF · Technical annex · Dossiers · US results · Canadian results · Candidate screen · Amount examples · Reproduction

Source/hash manifest · Access failures · Exclusions · Stage counts · Verification

The recovered earlier report compared LDA/FARA, not awards. Existing OFAC ZIPs contained the prior full-screen audit but only 153 candidate transactions; the exact full archive was then recovered and its hash/census verified. The parked NAI investigation was not reopened. External spend: **$0**. Public outputs omit bulk addresses, contact details, user correspondence, private Library IDs, large sources and the review ZIP. No outreach or paid calls occurred.

# Technical annex: FARA / federal awards pilot

**We had compared LDA and FARA; the recovered prior report does not document this award-recipient join. This pilot now performs it for the full recovered FY2025 US prime-contract archive and bounded Canadian records. It finds overlaps, not violations. Grants coverage remains incomplete.**

Prepared 14 October 2026. This annex records the completed pilot; sanitized findings are now published with user authorization. No third-party outreach occurred. No paid services, model/API billing, credentials changes or outreach. External spend: **$0**. The parked NAI investigation was not reopened or used as a recipient corpus.

## What the screen found

| Stage / unit | Denominator | Result |
|---|---|---|
| FARA registrant rows | 7,090 | 7,090 usable; 538 active in cached snapshot |
| FARA principal relationship rows | 17,765 | 17,750 usable; 821 active; 15 malformed/missing-date rows quarantined |
| FARA document catalogue rows | 154,309 | Discovery links only; not documents read |
| FY2025 US contract transactions | 6,639,176 | All seven archive members processed; no duplicate transaction IDs or date/type exclusions |
| US distinct nonblank raw recipient names | 101,379 | Same denominator as recovered OFAC audit; not a legal-entity count |
| US recipient name/identifier/address groups | 126,350 | 273 FARA candidate pairs: 168 registrant, 105 principal (200 normalized-exact, 73 weaker legal-form matches) |
| Candidate transaction screen | 6,639,176 transactions | 10,898 distinct candidate transactions, including historical and weak name matches |
| Active cached FARA candidate address pairs | 273 | 35: 26 registrant and 9 principal; 24 distinct role/registration/name/UEI keys |
| Direct name + building/city + time corroboration | 273 | 14 address groups, 79 actions, 37 award/IDV identifiers |
| Address-anchored legal name + stable recipient UEI bridge | 14 anchors | 21 address groups; **12 recipient/role/registration keys and 2,310 temporally overlapping actions** |
| Canadian OCL registration versions | 177,371 | 7,787 with active cached intervals; latest effective/posted date 2026-10-09 |
| FARA / Canadian lobbying exact-name version pairs | 177,371 OCL versions | 11,077 historical candidates; 22 active pairs |
| Canadian active name + address corroboration | 22 active pairs | 11 version pairs: three distinct names, four FARA role/registration keys |
| CanadaBuys 2026–27 contract-history rows | 2,083 | 1,888 distinct reference numbers; 1,531 distinct legal supplier names |
| FARA / CanadaBuys exact-name pairs | 2,083 history rows | 7 candidates across 4 source rows; **none has overlapping FARA dates** |
| Canadian lobbying / CanadaBuys name candidates | 2,083 history rows | 6,646 version pairs across 254 source rows |
| Canadian lobbying / CanadaBuys temporal candidates | 6,646 version pairs | 473; 112 also have address corroboration, across 48 distinct contract-history rows |
| Canadian funding disclosure rows | 218,466 | 22,004 associated with candidate registration versions saved; not a grant-payment comparison |
| Targeted US FY2025 grants name lookups | 3 names | Zero returned award rows; this is **not** a full grants negative |

The 12 corroborated US keys represent **11 FARA registrants and one named foreign principal**, Canadian Commercial Corporation. The registrants are Arnold & Porter Kaye Scholer, White & Case, Daniel J. Edelman,

The Burson Group, ArentFox Schiff, Ruder Finn, Venable, Fleishman-Hillard, Nelson Mullins Riley & Scarborough, Hunton Andrews Kurth, and Rational 360. Compact table and dossiers preserve IDs, dates, role, reasons and discovery links.

The strongest direct Canadian active identity overlaps are The Porter O'Brien Agency Inc., Burke Consulting LLC, and Nuclear Waste Management Organization. NWMO appears separately as registrant and principal; those are two source relationships, not two organizations. Consultant-firm matches identify the firm itself. Its Canadian clients are not automatically FARA registrants, foreign principals or foreign controlled.

The directly corroborated US Canadian Commercial Corporation records use the old O'Connor Street building. The exact same legal name and UEI FA38CTVQM319 bridges to the other address records in this archive, producing 2,184 temporally overlapping actions for that recipient. This is a transparent derived crosswalk: **FARA itself supplies no UEI**. The 2,310 total counts actions, including modifications, zero obligations and deobligations, rather than payments or new awards.

## Inputs recovered before new retrieval

All three supplied FARA CSVs and both OFAC ZIPs were already in the project. The OFAC ZIPs contain sanctions data and a screened subset, not the full USAspending corpus. The saved OFAC audit reports 6,639,176 FY2025 actions and 101,379 recipient names, but retains only 153 screened candidate transactions. Neither ZIP contains grants or all award years.

The specified baseline commit b316096e140175f81838cd5028eb2d0b7a59fa28 and prior branch were absent from this checkout. Its REPORT and ANNEX were recovered from the public repository at that exact commit and saved under evidence/. They describe the LDA/FARA comparison, not the requested award join. This finding is limited to the recovered report, annex and current checkout; no assertion is made about unseen work elsewhere.

The necessary full US archive was therefore retrieved from the exact saved official URL. It is 1,914,255,016 bytes and reproduces SHA-256 792f6b3ee67afd4d4e9eb7f3463a083f80efaf13279a7a1bfaba6fecfd6443da. Its seven filenames are dated 2026-09-07; official listing URL is dated 2026-09-06 and HTTP Last-Modified is 2026-09-14. All these dates are retained in evidence/prior-ofac-contract-source.json; none is silently treated as an award date.

Rabbit2 SYS-0120 / AP-0121 / MAP-00145 establishes the Canadian federal lobbying route. Rabbit5's visible Canadian procurement entries were provincial; they were not assumed to be a federal mapping. Official OCL and CanadaBuys direct files supplied by the parallel source researcher were checked and retrieved. The OCL dictionary was accessible here and verifies registration types, version IDs, effective/end dates and funding fields.

## Matching and time rules

Registrants and principals are independent source roles. A principal row represents an agent relationship, not a unique principal entity or necessarily a foreign government. The source name and all dates are retained. Historical and active results stay separate. “Active” means registration date on/before **2026-10-06**, and no termination or termination after that date, in the supplied cached FARA file; it does not certify live status on 14 October. All 821 active principal rows also attach to active registrants in this snapshot. Exact award action dates are compared with the recorded half-open registration intervals. Termination-day actions are conservatively excluded.

Names use Unicode normalization, case folding and punctuation normalization. Terminal legal-form removal is a distinct weaker candidate pass. No fuzzy, brand, parent, affiliate or beneficial-owner matching is performed. Business-name aliases are preserved but not used as identity evidence. Generic Canadian supplier placeholders such as None are removed before matching. Fifteen malformed FARA principal rows are preserved in EXCLUSIONS.json, without guessing repairs.

The second pass permits only controlled postal abbreviations and building-level address equality, with matching city and state where supplied. Suite differences remain visible. A stable recipient UEI is carried only from an address-corroborated anchor to the exact same legal name and UEI. It never links an affiliate or parent automatically. Canadian legal, standardized and operating supplier names are discovery fields, not interchangeable legal identities; the source field and full supplier record are retained. Canadian lobbying

matching uses English entity names; French-only names can be missed.

Counterexamples matter. Patriot Strategies is an active exact-name temporal candidate, but its FARA and award addresses differ, so it was not promoted. Lighthouse Public Affairs has different US/Canadian geography and remains a collision risk. Stark Aerospace's FARA relationship starts after the FY2025 contract period; this prevents a contemporaneous overlap claim despite the exact name. The weaker Rolls-Royce Inc./Corporation and FTI LLP/Inc. matches remain name candidates. No name-only candidate is counted as a verified identity.

## Disclosure comparisons and remaining gaps

X04's original test requires the actual LD-1 declaration, actual FARA Exhibit A ownership/control facts, the same legal client, dates and applicable threshold. X06 requires an itemized foreign-principal campaign-financing record and an exact ad/creative/placement bridge. A federal award overlap supplies neither test. Contract obligations are not campaign money or receipts.

The independent legal review identifies the appropriate next US record as the actual dated offer/SAM immediate/highest-level owner representation, where applicable, rather than a blanket FARA prohibition. Applicable DFARS, award-specific lobbying clauses/SF-LLL, and grants/program rules need their own dated scope. These records were not obtained. See FAR 52.204-17, DOJ FARA FAQ, and the dossier-specific missing evidence. No inaccessible disclosure is described as absent.

For Canada, procurement contracts are excluded from lobbying government-funding disclosures. A genuine comparison needs actual grants/nonrepayable contributions **received**, matched to the registration's completed financial year and amendments; award value alone is insufficient. Consultant contract-award lobbying and in-house activities also have different scope. See OCL registry and Lobbying Act. A consultant firm's unrelated FARA engagement does not establish control of its Canadian client.

Exact blockers and limits:

• Canadian TBS all-federal contracts and grants files returned HTTP 403. This is an access gap, not zero recipients or missing disclosures.

• Four attempted original FARA PDFs returned HTTP 403. Bulk rows and catalogue links are evidence; the PDFs were not read, and no ownership/campaign conclusions are promoted.

• US grants were limited to three saved FY2025 award-name searches: Canadian Commercial Corporation, Patriot Strategies LLC and Sasakawa Peace Foundation USA. Zero returned rows applies only to those query spellings, filters and snapshot; aliases/subrecipients/full grants corpus remain untested.

• CanadaBuys history is a bounded **PSPC-managed** procurement slice, not all federal procurement, grants, or all years. Structural changes in March–April 2026 removed some administrative duplicates and individual call-ups. Historical identifier and address coverage is incomplete.

• Prime-recipient joins do not cover subawards, historical beneficial owners, agents' ordinary clients, payments, all fiscal years or historical statuses omitted from cached files. No FARA-to-UEI or cross-border business-number mapping was available directly.

## Reproduce and inspect

Run from the project root, with Python standard library only:

```
python research/2026-10-14/fara-award-pilot/reproduce.py
research/2026-10-14/fara-award-pilot/evidence/FY2025_All_Contracts_Full_20260906.zip
python research/2026-10-14/fara-award-pilot/canada.py
python research/2026-10-14/fara-award-pilot/review.py
```

us-summary.json, canada-summary.json, review-summary.json and additional-counts.json contain machine-readable stage counts. us-candidates.csv / JSON preserve all candidates; us-candidate-transactions.jsonl preserves raw action identifiers and selected original award fields; us-recipient-index.jsonl is the recovered full recipient index. us-address-anchored-uei-overlaps.json records the stable-identifier bridge. Canadian candidate JSON/JSONL retains version/client IDs, dates, entity roles and source-row references. EXCLUSIONS.json, input manifests, retrieval-ledger.json and

PUBLICATION-SHA256SUMS provide provenance and gaps. Individual OCL page URLs are constructed from sourced client/version IDs; the saved bulk row is the retrieved evidence, not a claim that each page was read.

Large inputs and raw intermediates remain local and ignored. Only an explicit sanitized publication allowlist is committed. The findings justify targeted record checks; they do not establish contradictory disclosures or violations.

## Follow-up verification and amount findings

All three FARA CSVs, all seven US contract CSV members, the entire Canadian primary registration CSV, the entire Canadian funding CSV and the entire bounded CanadaBuys history CSV were read. Other members of the Canadian registration ZIP were not analyzed. Original FARA PDFs were not read.

Of the 35 active US address pairs, 31 have FY2025 actions inside their FARA interval. Four do not. The 14 direct address anchors resolve to 12 recipient/role/registration keys; carrying only the same legal name and UEI produces 21 address groups and 2,310 actions.

The original compact candidate table and DOSSIERS.md retain the direct-anchor scope of 79 actions. AMOUNTS.md and amounts.csv use the expanded 2,310-action scope. Net amounts are changes in obligations, not cash payments, contractor revenue, campaign financing or total award ceilings. The reported Canadian government-funding amounts are self-reported financial-year disclosures, not independently verified grant payments.

The Canadian and review scripts were rerun with identical summary counts. summarize.py reconstructed the 12 keys and 2,310 actions using exact decimal arithmetic. verify.py passed saved census, candidate, temporal, UEI, amount and Canadian output checks. No broad US analysis or downloads were repeated. Run python research/2026-10-14/fara-award-pilot/summarize.py and then python research/2026-10-14/fara-award-pilot/verify.py after the earlier steps.

The catalogue contains 32 anomalous URL pointers, including a future-looking date in a URL and zero-date filenames. These are retained in catalogue-url-anomalies.json, not silently repaired. They do not drive identity or action-date counts and are not documents read.

No case establishes a violation or a contradictory disclosure under an applicable rule. Further reporting would need actual dated ownership/control representations, award-specific lobbying/payment evidence, or qualifying grant receipts matched to the disclosure financial year. Procurement omission does not meet the Canadian government-funding test.

## Publication scope and counting clarifications

A principal registration number identifies its agent registration, not a unique principal. CCC’s 5971 identifies its separate agent; NWMO appears as both registrant and principal under 7186. Neither role implies foreign-government status or ownership/control.

**79 direct actions** across 14 groups and 37 award/IDV IDs are included in **2,310 expanded same-name/UEI actions** across 21 groups, 12 keys and 1,719 award/IDV IDs. Never add these scopes. All public monetary totals use expanded action obligations, not payments. Published compact-candidates.csv now includes both scopes; the earlier local direct-only table is not the public table.

Of 35 active candidates (32 exact and 3 weaker), 31 have overlapping FY2025 actions; four do not. Canadian history dates are 2026-04-01–2026-09-25. Canadian primary counts are registration versions; 112 address/time matches are version pairs across 48 contract rows, not 112 organizations. English-name matching can miss French-only records.

The entire FARA CSVs, seven US CSV members, Canadian primary/funding files and bounded history were read. Other Canadian ZIP members were not used for parent/beneficiary/activity inference. Principal action matching uses the relationship’s recorded half-open interval; comprehensive historical reconstruction from original PDFs was not possible.

The Canadian dictionary defines amount as last completed financial-year funding in Canadian dollars, with a separate current-year expected-funding flag. Client funding is not consultant income. NWMO’s two roles do not double its C$5,423,515.35 disclosure. Blocked grant inputs prevent receipt reconciliation.

The Canadian/review scripts reproduced saved summaries. Amount/evidence checks passed without repeating the US collection. SOURCE-MANIFEST.json records input hashes, SOURCE-LEDGER.json records URLs/failures, and RESULTS-SUMMARY.json combines stage counts. EXCLUSIONS.json withholds raw address fields. Public candidate group IDs are opaque and refer to withheld address groups; source hashes/row IDs permit inspection, but the public table alone cannot reproduce address equality. PUBLICATION-SHA256SUMS covers published files only.

There are 32 anomalous catalogue URL pointers, including zero-date filenames and a future-looking filename. No PDF was read or repaired. These do not determine registration/action intervals; the publication generator omits them from corroborated discovery links.

General grants do not create a universal foreign-agent disclosure duty. DFARS foreign-government-control/proscribed-information restrictions have their own scope, exceptions and waivers; later proposals are not operative FY2025 rules. Canadian consultant/in-house lobbying, its later foreign-influence registry and security-sensitive procurement rules are distinct, not a blanket retrospective FARA prohibition. No candidate establishes a contradictory declaration under an applicable rule.

## Conservative identity scope

Address agreement is a positive anchor, not a necessary condition of legal identity. Mismatches remain unresolved in this baseline, not rejected: an overseas headquarters, operating office, branch or separately incorporated subsidiary can explain them. Affiliates must stay distinct but can merit dated ownership/control review. A subsequent expanded principal-resolution investigation is separate and is not published as a finding here.

Historical SAM bulk layout does not contain the owner-representation fields needed for this test. API record-date filters are not proof of historical-version access. The missing record is an actual dated versioned Reps & Certs report and relevant offer-specific changes under FAR52.204-8(d); archived SAM verification is addressed by FAR4.1201(c). Late FY2025 agency deviations can change clause numbering/scope, so verify the actual solicitation, clause/version and amendments rather than assume52.204-17 applies universally. None of these dated entity-specific answers was verified in this baseline.

# Amounts and substantive findings

Scope: the table below uses 2,310 expanded same-name/UEI actions. Its 79 direct-address anchor actions are included in that count, not added to it. The expanded figures are changes in obligations, not payments.

US dollars, FY2025 matched actions only. Net obligations sum increases and decreases in government commitments. They are not cash paid, a contractor's revenue, campaign finance, or an award ceiling. Zero-dollar IDV actions show a vehicle modification, not a funded order. No amounts are attributed to a foreign principal merely because a contractor represents it.

| US recipient | FARA role / number | UEI | Overlapping actions | Net action obligations, USD |
|---|---|---|---|---|
| ArentFox Schiff LLP | registrant / 6952 | S21YMU5UGDL7 | 2 | -25,010.73 |
| Arnold & Porter Kaye Scholer LLP | registrant / 1750 | CQATSBKZKCR1 | 13 | 2,980,265.00 |

## Representative US records

• **Canadian Commercial Corporation:** 2025-03-31, Department of Defense, CONT_AWD_W912CH25C0004_9700_-NONE-_-NONE-, action obligation **$265,521,204.00**. FY2025 matched-action net: **$1,397,519,226.86**. Positive, negative, zero actions: 1363, 127, 694.

• **Arnold & Porter Kaye Scholer LLP:** 2024-11-20, Department of the Treasury, CONT_AWD_2032H325F00019_2001_2032H325A00002_2001, action obligation **$2,275,340.00**. FY2025 matched-action net: **$2,980,265.00**. Positive, negative, zero actions: 4, 1, 8.

• **Daniel J. Edelman, Inc.:** 2025-09-23, Department of Health and Human Services, CONT_AWD_75D30121F10860_7523_HHSD2002015M88155B_7523, action obligation **$909,026.42**. FY2025 matched-action net: **$1,321,704.23**. Positive, negative, zero actions: 4, 5, 12.

• **Hunton Andrews Kurth LLP:** 2025-06-26, Department of Housing and Urban Development, CONT_AWD_86615623C00018_8600_-NONE-_-NONE-, action obligation **$3,844,488.00**. FY2025 matched-action net: **$-169,244.66**. Positive, negative, zero actions: 31, 8, 6.

• **White & Case LLP:** 2025-07-21, Department of Energy, CONT_AWD_89303025CGC000010_8900_-NONE-_-NONE-, action obligation **$900,000.00**. FY2025 matched-action net: **$281,321.25**. Positive, negative, zero actions: 4, 3, 4.

• **The Burson Group LLC:** 2025-09-12, General Services Administration, CONT_IDV_47QRAA22D0064_4732, action obligation **$0.00**. FY2025 matched-action net: **$0.00**. Positive, negative, zero actions: 0, 0, 8.

Hunton illustrates why the largest action is not a spending total: a $3.84 million positive action coexists with larger aggregate deobligations, yielding a negative FY2025 net for these matched actions. Burson, Ruder Finn

and Fleishman-Hillard have only zero-obligation matched IDV actions. ArentFox and Rational 360 have only negative matched actions; they do not show new positive FY2025 commitments in this slice.

## Canadian findings and amounts

• **The Porter O'Brien Agency Inc. — FARA 7537, registrant:** eight active OCL version pairs have the same Churchill Row building and Fredericton address. Other active exact-name pairs use a different building or an apparent street-number difference and are not included in the eight. These are its consultant-firm records, not proof that Port Saint John, University of New Brunswick or its other clients are FARA registrants. OCL version 994044 is a Port Saint John client registration, effective 2026-07-24, reporting a financial year ended 2025-12-31. Its funding entry lists C$3,096,663.77 from Government of Canada. That amount belongs to the client disclosure, not Porter O'Brien's fees.

• **Burke Consulting LLC — FARA 7473, registrant:** one active OCL version 974824 matches the supplied organizational address in Grafton, Wisconsin. The client is Canadian American Business Council; the registration is effective 2025-09-19 and says No to government funding. That is a statement about the client's qualifying funding, not Burke's federal procurement or its other FARA work. No matched grant-payment record was recovered, so no inconsistency is established.

• **Nuclear Waste Management Organization — FARA 7186, separately registrant and principal:** OCL version 985554 is an in-house organization registration effective 2026-03-24, at the same St. Clair Avenue East building in Toronto. The financial year ends 2025-12-31; the funding indicator is Yes. Its disclosure lists **C$3,547,322.81 from Atomic Energy of Canada Limited** and **C$1,876,192.54 from Natural Resources Canada**, total **C$5,423,515.35**. The dictionary defines amount as funding in the last completed financial year; the rows also carry the current-year funding-expected flag Y. These are self-reported funding disclosures, not newly verified grant payments, and are not double-counted because NWMO has two FARA roles.

The Government of Canada funding rows in OCL are self-reported completed-financial-year amounts, with a separate expected-funding flag. They do not establish a procurement discrepancy: procurement is excluded from this disclosure field. The blocked grants file prevents a receipt-versus-disclosure reconciliation.

## What warrants further reporting?

The completed pilot supports a descriptive report that some FARA registrants and one named principal also appear as federal recipients. **It identifies no source-backed violation, contradictory declaration, undisclosed campaign finance, or reporting-duty breach.** Ordinary explanations include unrelated federal professional services, legitimate international procurement, existing disclosures, and simple vehicle modifications.

For an actual US ownership inconsistency, obtain the dated offer/SAM immediate/highest-level ownership representation and a sourced contrary control fact for the same legal entity and operative award-year clause. FARA registration itself is not that contrary fact. For award-specific lobbying, obtain the contract clause version, lobbying payment/activity evidence and any applicable SF-LLL; federal money and FARA work occurring in parallel do not establish prohibited use. For Canada, match actual qualifying grant/nonrepayable-contribution receipts to the registration's financial year and amendments. None of these gates is presently satisfied. X04 still requires the exact LD-1 and Exhibit A facts; X06 still requires an itemized campaign and exact ad bridge.

# Corroborated overlaps: direct anchors and expanded recipient actions

These are descriptive, source-backed bulk-record overlaps, not accusations. Original FARA PDFs were inaccessible. A principal's FARA number belongs to its agent registration, not to a unique principal ID. Amounts are obligations, not payments.

Every US row below separates the narrow direct-building scope from the expanded exact-name-and-UEI scope. The totals are **79 direct actions** and **2,310 expanded actions**. The direct actions are included in the expanded count; do not add them.

## ArentFox Schiff LLP

Role: registrant; FARA agent registration 6952; recipient UEI S21YMU5UGDL7. Recorded FARA interval: 2021-04-30 through no termination in cached source.

Direct scope: **2 actions**, 1 building/address groups. Expanded same-name/UEI scope: **2 actions**, 1 groups and 2 award/IDV IDs, 2025-09-04–2025-09-04.

Expanded-scope net action obligations: **US$-25,010.73**. Representative award/vehicle; largest action amount US$-1,754.50 on 2025-09-04. This can be zero or negative; it is not cash received.

Identity reason: Exact name and building/city anchor; carry only same legal name and recipient UEI; action dates inside FARA interval.

Ordinary explanation: ordinary federal professional services alongside unrelated foreign-client engagements.

Next missing evidence: the exact dated and applicable ownership representation plus a contradictory control fact, or award-specific lobbying/payment facts and operative clause. None was recovered. FARA status alone does not provide that contradiction.

FARA catalogue discovery links (not PDFs read):
https://efile.fara.gov/docs/6952-Supplemental-Statement-20260609-10.pdf;
https://efile.fara.gov/docs/6952-Supplemental-Statement-20251205-9.pdf.

## Arnold & Porter Kaye Scholer LLP

Role: registrant; FARA agent registration 1750; recipient UEI CQATSBKZKCR1. Recorded FARA interval: 1964-06-04 through no termination in cached source.

Direct scope: **13 actions**, 1 building/address groups. Expanded same-name/UEI scope: **13 actions**, 1 groups and 6 award/IDV IDs, 2024-11-12–2025-09-29.

Expanded-scope net action obligations: **US$2,980,265.00**. Representative award/vehicle; largest action amount US$2,275,340.00 on 2024-11-20. This can be zero or negative; it is not cash received.

Identity reason: Exact name and building/city anchor; carry only same legal name and recipient UEI; action dates inside FARA interval.

Ordinary explanation: ordinary federal professional services alongside unrelated foreign-client engagements.

Next missing evidence: the exact dated and applicable ownership representation plus a contradictory control fact, or award-specific lobbying/payment facts and operative clause. None was recovered. FARA status alone does not provide that contradiction.

https://efile.fara.gov/docs/1750-Supplemental-Statement-20260730-46.pdf;
https://efile.fara.gov/docs/1750-Exhibit-AB-20260707-1.pdf.

## Canadian Commercial Corporation

Role: foreign_principal; FARA agent registration 5971; recipient UEI FA38CTVQM319. Recorded FARA interval: 2010-01-11 through no termination in cached source.

Direct scope: **4 actions**, 2 building/address groups. Expanded same-name/UEI scope: **2184 actions**, 5 groups and 1635 award/IDV IDs, 2024-10-01–2025-09-30.

Expanded-scope net action obligations: **US$1,397,519,226.86**. Representative award/vehicle; largest action amount US$265,521,204.00 on 2025-03-31. This can be zero or negative; it is not cash received.

Identity reason: Exact name and building/city anchor; carry only same legal name and recipient UEI; action dates inside FARA interval.

Ordinary explanation: international procurement by the named recipient; its separate FARA agent is not the contracting recipient.

Next missing evidence: the exact dated and applicable ownership representation plus a contradictory control fact, or award-specific lobbying/payment facts and operative clause. None was recovered. FARA status alone does not provide that contradiction.

FARA catalogue discovery links (not PDFs read): https://efile.fara.gov/docs/5971-Exhibit-AB-20100423-4.pdf; https://efile.fara.gov/docs/5971-Exhibit-AB-20100111-3.pdf.

## Daniel J. Edelman, Inc.

Role: registrant; FARA agent registration 3634; recipient UEI DJEAK18EKF64. Recorded FARA interval: 1984-11-15 through no termination in cached source.

Direct scope: **16 actions**, 1 building/address groups. Expanded same-name/UEI scope: **21 actions**, 2 groups and 14 award/IDV IDs, 2024-11-21–2025-09-23.

Expanded-scope net action obligations: **US$1,321,704.23**. Representative award/vehicle; largest action amount US$909,026.42 on 2025-09-23. This can be zero or negative; it is not cash received.

Identity reason: Exact name and building/city anchor; carry only same legal name and recipient UEI; action dates inside FARA interval.

Ordinary explanation: ordinary federal professional services alongside unrelated foreign-client engagements.

Next missing evidence: the exact dated and applicable ownership representation plus a contradictory control fact, or award-specific lobbying/payment facts and operative clause. None was recovered. FARA status alone does not provide that contradiction.

FARA catalogue discovery links (not PDFs read): https://efile.fara.gov/docs/3634-Supplemental-Statement-20260827-56.pdf; https://efile.fara.gov/docs/3634-Exhibit-AB-20260821-1.pdf.

## Fleishman-Hillard, Inc.

Role: registrant; FARA agent registration 5801; recipient UEI DUSUKZM4M9C8. Recorded FARA interval: 2007-04-16 through no termination in cached source.

Direct scope: **7 actions**, 1 building/address groups. Expanded same-name/UEI scope: **7 actions**, 1 groups and 1 award/IDV IDs, 2024-10-31–2025-07-31.

Expanded-scope net action obligations: **US$0.00**. Representative award/vehicle; largest action amount US$0.00 on 2025-07-31. This can be zero or negative; it is not cash received.

Identity reason: Exact name and building/city anchor; carry only same legal name and recipient UEI; action dates inside FARA interval.

Ordinary explanation: ordinary federal professional services alongside unrelated foreign-client engagements.

Next missing evidence: the exact dated and applicable ownership representation plus a contradictory control fact, or award-specific lobbying/payment facts and operative clause. None was recovered. FARA status alone does not provide that contradiction.

https://efile.fara.gov/docs/5801-Amendment-20260908-38.pdf.

## Hunton Andrews Kurth LLP

Role: registrant; FARA agent registration 7268; recipient UEI EMD3YKSV8YP3. Recorded FARA interval: 2023-05-10 through no termination in cached source.

Direct scope: **3 actions**, 1 building/address groups. Expanded same-name/UEI scope: **45 actions**, 3 groups and 41 award/IDV IDs, 2024-11-04–2025-09-24.

Expanded-scope net action obligations: **US$-169,244.66**. Representative award/vehicle; largest action amount US$3,844,488.00 on 2025-06-26. This can be zero or negative; it is not cash received.

Identity reason: Exact name and building/city anchor; carry only same legal name and recipient UEI; action dates inside FARA interval.

Ordinary explanation: ordinary federal professional services alongside unrelated foreign-client engagements.

Next missing evidence: the exact dated and applicable ownership representation plus a contradictory control fact, or award-specific lobbying/payment facts and operative clause. None was recovered. FARA status alone does not provide that contradiction.

FARA catalogue discovery links (not PDFs read): https://efile.fara.gov/docs/7268-Supplemental-Statement-20260630-7.pdf; https://efile.fara.gov/docs/7268-Amendment-20260311-1.pdf.

## Nelson Mullins Riley & Scarborough, LLP

Role: registrant; FARA agent registration 5928; recipient UEI FQBNX1EL4FA4. Recorded FARA interval: 2009-04-10 through no termination in cached source.

Direct scope: **2 actions**, 1 building/address groups. Expanded same-name/UEI scope: **2 actions**, 1 groups and 1 award/IDV IDs, 2024-11-21–2025-07-22.

Expanded-scope net action obligations: **US$44,250.00**. Representative award/vehicle; largest action amount US$44,250.00 on 2024-11-21. This can be zero or negative; it is not cash received.

Identity reason: Exact name and building/city anchor; carry only same legal name and recipient UEI; action dates inside FARA interval.

Ordinary explanation: ordinary federal professional services alongside unrelated foreign-client engagements.

Next missing evidence: the exact dated and applicable ownership representation plus a contradictory control fact, or award-specific lobbying/payment facts and operative clause. None was recovered. FARA status alone does not provide that contradiction.

FARA catalogue discovery links (not PDFs read): https://efile.fara.gov/docs/5928-Amendment-20260609-6.pdf; https://efile.fara.gov/docs/5928-Exhibit-AB-20260609-2.pdf.

## Rational 360, Inc.

Role: registrant; FARA agent registration 7369; recipient UEI LWHURKJLE2C4. Recorded FARA interval: 2024-02-02 through no termination in cached source.

Direct scope: **1 actions**, 1 building/address groups. Expanded same-name/UEI scope: **1 actions**, 1 groups and 1 award/IDV IDs, 2024-12-17–2024-12-17.

Expanded-scope net action obligations: **US$-26,062.62**. Representative award/vehicle; largest action amount US$-26,062.62 on 2024-12-17. This can be zero or negative; it is not cash received.

Identity reason: Exact name and building/city anchor; carry only same legal name and recipient UEI; action dates inside FARA interval.

Ordinary explanation: ordinary federal professional services alongside unrelated foreign-client engagements.

Next missing evidence: the exact dated and applicable ownership representation plus a contradictory control fact, or award-specific lobbying/payment facts and operative clause. None was recovered. FARA status alone does not provide that contradiction.

FARA catalogue discovery links (not PDFs read): https://efile.fara.gov/docs/7369-Amendment-20260930-3.pdf; https://efile.fara.gov/docs/7369-Amendment-20260930-2.pdf.

## Ruder Finn, Inc.

Role: registrant; FARA agent registration 6840; recipient UEI MHKKSRSKRDS3. Recorded FARA interval: 2020-06-22 through no termination in cached source.

Direct scope: **8 actions**, 1 building/address groups. Expanded same-name/UEI scope: **8 actions**, 1 groups and 2 award/IDV IDs, 2024-12-24–2025-08-19.

Expanded-scope net action obligations: **US$0.00**. Representative award/vehicle; largest action amount US$0.00 on 2025-08-19. This can be zero or negative; it is not cash received.

Identity reason: Exact name and building/city anchor; carry only same legal name and recipient UEI; action dates inside FARA interval.

Ordinary explanation: ordinary federal professional services alongside unrelated foreign-client engagements.

Next missing evidence: the exact dated and applicable ownership representation plus a contradictory control fact, or award-specific lobbying/payment facts and operative clause. None was recovered. FARA status alone does not provide that contradiction.

FARA catalogue discovery links (not PDFs read): https://efile.fara.gov/docs/6840-Amendment-20260729-2.pdf; https://efile.fara.gov/docs/6840-Exhibit-AB-20260729-2.pdf.

## The Burson Group LLC

Role: registrant; FARA agent registration 6227; recipient UEI L85NZPCRHPY7. Recorded FARA interval: 2014-06-18 through no termination in cached source.

Direct scope: **8 actions**, 1 building/address groups. Expanded same-name/UEI scope: **8 actions**, 1 groups and 1 award/IDV IDs, 2025-01-29–2025-09-12.

Expanded-scope net action obligations: **US$0.00**. Representative award/vehicle; largest action amount US$0.00 on 2025-09-12. This can be zero or negative; it is not cash received.

Identity reason: Exact name and building/city anchor; carry only same legal name and recipient UEI; action dates inside FARA interval.

Ordinary explanation: ordinary federal professional services alongside unrelated foreign-client engagements.

Next missing evidence: the exact dated and applicable ownership representation plus a contradictory control fact, or award-specific lobbying/payment facts and operative clause. None was recovered. FARA status alone does not provide that contradiction.

FARA catalogue discovery links (not PDFs read): https://efile.fara.gov/docs/6227-Amendment-20260806-1.pdf; https://efile.fara.gov/docs/6227-Amendment-20260707-49.pdf.

## Venable, LLP

Role: registrant; FARA agent registration 5931; recipient UEI EC44BLNJVM99. Recorded FARA interval: 2009-04-17 through no termination in cached source.

Direct scope: **4 actions**, 1 building/address groups. Expanded same-name/UEI scope: **8 actions**, 2 groups and 6 award/IDV IDs, 2025-02-12–2025-08-14.

Expanded-scope net action obligations: **US$-85,795.00**. Representative award/vehicle; largest action amount US$1,109,920.00 on 2025-06-04. This can be zero or negative; it is not cash received.

Identity reason: Exact name and building/city anchor; carry only same legal name and recipient UEI; action dates inside FARA interval.

Ordinary explanation: ordinary federal professional services alongside unrelated foreign-client engagements.

Next missing evidence: the exact dated and applicable ownership representation plus a contradictory control fact, or award-specific lobbying/payment facts and operative clause. None was recovered. FARA status alone does not provide that contradiction.

FARA catalogue discovery links (not PDFs read): https://efile.fara.gov/docs/5931-Exhibit-AB-20260827-1.pdf; https://efile.fara.gov/docs/5931-Amendment-20260827-1.pdf.

## White & Case LLP

Role: registrant; FARA agent registration 6393; recipient UEI UD4AE9GCNCZ3. Recorded FARA interval: 2016-11-21 through no termination in cached source.

Direct scope: **11 actions**, 2 building/address groups. Expanded same-name/UEI scope: **11 actions**, 2 groups and 9 award/IDV IDs, 2025-02-21–2025-09-29.

Expanded-scope net action obligations: **US$281,321.25**. Representative award/vehicle; largest action amount US$900,000.00 on 2025-07-21. This can be zero or negative; it is not cash received.

Identity reason: Exact name and building/city anchor; carry only same legal name and recipient UEI; action dates inside FARA interval.

Ordinary explanation: ordinary federal professional services alongside unrelated foreign-client engagements.

Next missing evidence: the exact dated and applicable ownership representation plus a contradictory control fact, or award-specific lobbying/payment facts and operative clause. None was recovered. FARA status alone does not provide that contradiction.

## Canada

11 active address-corroborated version pairs represent three names and four FARA role/registration keys. NWMO is recorded in two roles; this does not create a second organization. Consultant-firm matches do not transfer FARA status to their clients.

### The Porter O'Brien Agency Inc. — registrant

FARA agent registration 7537; 8 OCL pairs, version IDs 994044; 989550; 996990; 996776; 989612; 980650; 989608; 987864; Canadian role consultant_firm. FARA starts 2025-02-11; relevant OCL effective dates 2026-07-24; 2026-05-21; 2026-09-24; 2026-09-18; 2026-05-21; 2025-12-31; 2026-05-21; 2026-04-15. Organizational address corroboration was reviewed locally; bulk street/contact fields are not republished.

OCL discovery links, constructed from sourced client and version IDs:
https://lobbycanada.gc.ca/app/secure/ocl/lrs/do/vwRg?cno=383492&regId=994044;
https://lobbycanada.gc.ca/app/secure/ocl/lrs/do/vwRg?cno=382649&regId=989550;
https://lobbycanada.gc.ca/app/secure/ocl/lrs/do/vwRg?cno=384087&regId=996990;
https://lobbycanada.gc.ca/app/secure/ocl/lrs/do/vwRg?cno=388164&regId=996776;
https://lobbycanada.gc.ca/app/secure/ocl/lrs/do/vwRg?cno=385559&regId=989612;

https://lobbycanada.gc.ca/app/secure/ocl/lrs/do/vwRg?cno=374554&regId=987864

No procurement/funding-disclosure inconsistency is alleged. A valid grant comparison needs actual qualifying receipts, the completed financial year and relevant amendments.

### Burke Consulting LLC — registrant

FARA agent registration 7473; 1 OCL pairs, version IDs 974824; Canadian role consultant_firm. FARA starts 2024-10-15; relevant OCL effective dates 2025-09-19. Organizational address corroboration was reviewed locally; bulk street/contact fields are not republished.

OCL discovery links, constructed from sourced client and version IDs: https://lobbycanada.gc.ca/app/secure/ocl/lrs/do/vwRg?cno=376479&regId=974824

No procurement/funding-disclosure inconsistency is alleged. A valid grant comparison needs actual qualifying receipts, the completed financial year and relevant amendments.

### Nuclear Waste Management Organization — registrant

FARA agent registration 7186; 1 OCL pairs, version IDs 985554; Canadian role registered_client. FARA starts 2022-10-14; relevant OCL effective dates 2026-03-24. Organizational address corroboration was reviewed locally; bulk street/contact fields are not republished.

OCL discovery links, constructed from sourced client and version IDs: https://lobbycanada.gc.ca/app/secure/ocl/lrs/do/vwRg?cno=370501&regId=985554

No procurement/funding-disclosure inconsistency is alleged. A valid grant comparison needs actual qualifying receipts, the completed financial year and relevant amendments.

### Nuclear Waste Management Organization — foreign_principal

FARA agent registration 7186; 1 OCL pairs, version IDs 985554; Canadian role registered_client. FARA starts 2022-10-14; relevant OCL effective dates 2026-03-24. Organizational address corroboration was reviewed locally; bulk street/contact fields are not republished.

OCL discovery links, constructed from sourced client and version IDs: https://lobbycanada.gc.ca/app/secure/ocl/lrs/do/vwRg?cno=370501&regId=985554

No procurement/funding-disclosure inconsistency is alleged. A valid grant comparison needs actual qualifying receipts, the completed financial year and relevant amendments.

NWMO’s registration already reports C$3,547,322.81 from AECL and C$1,876,192.54 from NRCan for its financial year ended 2025-12-31. These total C$5,423,515.35 in self-reported funding; they are not independently verified grant payments.

Porter O’Brien’s Port Saint John client registration lists C$3,096,663.77 from Government of Canada; that is the client’s disclosure, not the consultant’s fees. Burke’s Canadian American Business Council client registration says No to qualifying government funding, but no contradictory receipt record was recovered.
